## Trace Training Credit Training Programs

### Option 1

#### Debtor Health Check

We offer an independent Credit Assessment and Health Check which will give an assessment on the quality of the receivables portfolio.

### Option 2

#### Debtors Health Check

We offer an independent Credit Assessment and Health Check which will give an assessment on the quality of the receivables portfolio. It is designed to:

- identify credit process improvement opportunities,
- outline actions for cash flow improvement and
- identify cost of credit saving opportunities

### Option 3

#### Debtors Health Check

We offer an independent Credit Assessment and Health Check which will give an assessment on the quality of the receivables portfolio. It is designed to:

- identify credit process improvement opportunities,
- outline actions for cash flow improvement and
- identify cost of credit saving opportunities

The report includes a benchmarking and competitor analysis.

The process takes 2-3 hours and includes discussions and interviews with the finance and credit managers, the completion of a standard questionnaire and a data template.

- Would you like a review of your processes and procedures?
- Would you like an independent review of your receivables performance?
- Would you like to benchmark your receivables portfolio against other companies in your industry?
- Would you like a credit specialist to identify cash flow improvement opportunities?
